 - To preserve Chinese medicine as a vital part of traditional Chinese culture;
 - To train outstanding medical professional;
 - To further develop the function of Chinese medicine in both the prevention and the treatment of disease;
 - To promote the study and practice of Chinese medicine in China and around the world.

Students Information

Number of Students	22,308
Undergraduates	6,528
Graduates	2,956
Tertiary Vocational Students	1,452
Part time Students	11,372

Schools

1. School of Preclinical Medicine
2. School of Chinese Materia Medica
3. School of Acupuncture and Tuina
4. School of Management
5. School of Nursing
6. School of Humanities
7. Graduate School
8. International School
9. School of Continuing Studies
10. School of Distance Learning

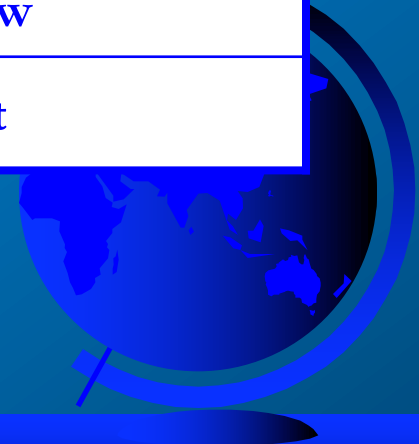

Undergraduate Programs

Programs	School Year	Degree
Chinese Medicine	7	Master of Medicine Bachelor of Medicine
Chinese Medicine	5	Bachelor of Medicine
Acupuncture and Tuina	5	Bachelor of Medicine
Chinese Materia Medica	4	Bachelor of Science
Pharmaceutics of Chinese Materia Medica	4	Bachelor of Engineering
Chinese Nursing	4	Bachelor of Science

Undergraduate Programs

Programs	School Year	Degree
Management of Public Health	5	Bachelor of Management
Business Management	4	Bachelor of Management
Law (Medicine & Health)	4	Bachelor of Law
English (Medical Science)	5	Bachelor of Art

Undergraduate Programs (Taught in English)

Programs	School Year	Degree
Chinese Medicine (including acupuncture)	5	Bachelor of Medicine
Chinese Medicine for Western Medical Doctors	2	Bachelor of Chinese Medicine

Curriculums of Undergraduate TCM Program

**TCM
Program
Courses**

**Key Part: Fundamental Courses of
Chinese Medicine**

Extending Part: Life Science Courses

**Supplementary Part: Fundamental
Courses of Western Medicine**

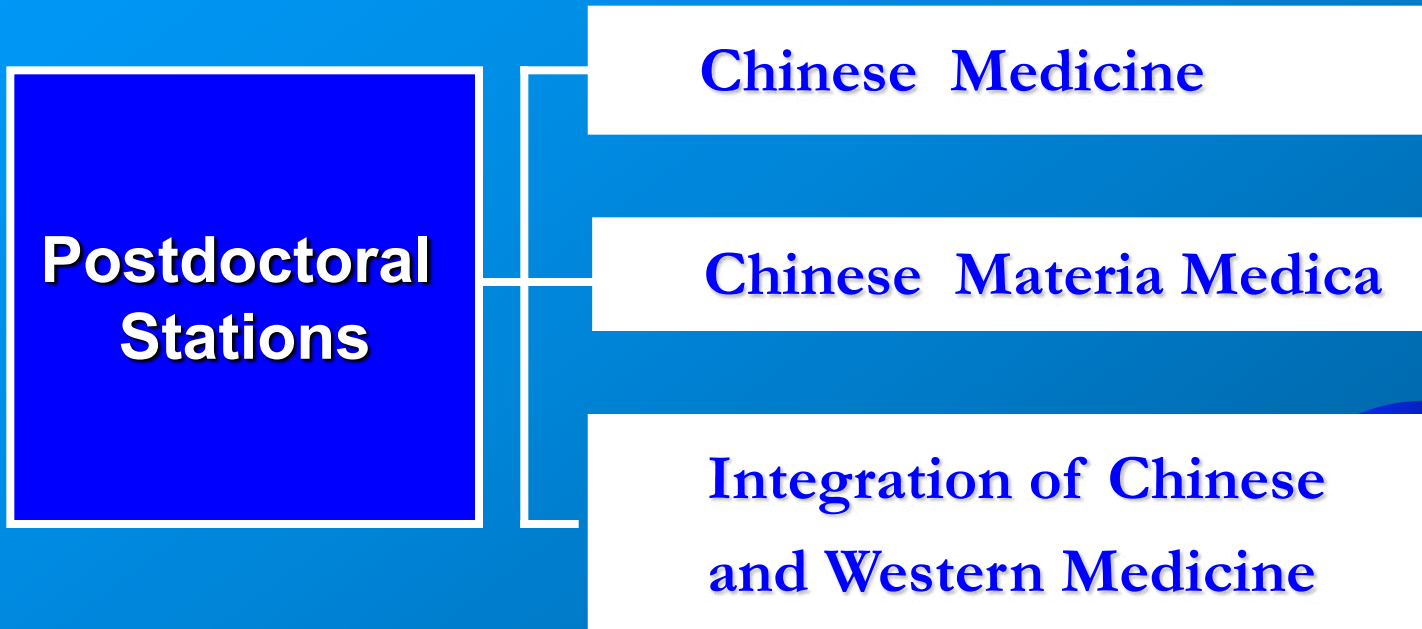

Graduate Education

- **26 Master Degree Programs**
- **21 Ph.D Programs**

Post Doctoral Research

Scientific Researches

➤ The university undertakes a large number of research projects at national and provincial levels, and consistently receives outstanding performance awards each year. The scope of research fields covers:

- Chinese Medicine
- Chinese Materia Medica
- Integrated Chinese and Western Medicine

Scientific Researches

Research on Chinese Medicine

- Ancient Literature of Chinese Medicine
- Chinese Medical Philosophy and Culture
- Experimental Research on Fundamental Theories of Chinese Medicine
- Study Traditional Diagnostic Methods with Modern Science and Technology

Scientific Researches

Research on Chinese Materia Medica

- Therapeutic theory and information engineering
- Substance and quality control of herbs formulae
- Therapeutic effectiveness and safety evaluation of herbs formulae
- New dosage forms and technology
- Herbal resources and identification

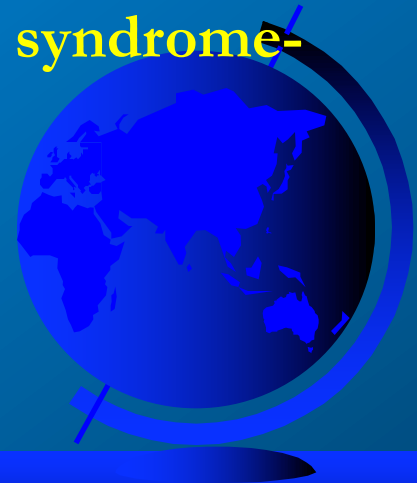

Scientific Researches

Research on Integration of Chinese and Western Medicine

- Mechanism study of cerebropathy and neuropathy
- “Same treatment for different disease” principle
- TCM pestilence and modern molecular biology
- Modern pathogenesis related to syndrome-formulae correlation
- Diagnostic techniques and pathogenesis

University Hospitals

- **Three university hospitals with 2800 medical staff and 1500 beds are equipped with advanced technology and instruments**

Teaching Hospitals

- 25 teaching hospitals located in Beijing and Hebei province accepting BUCM students clinical study and internship

BUCM

Dong Zhi Men Chinese Medicine Hospital

BUCM

Dong Fang Chinese Medicine Hospital

BUCM

Herbal Pharmacy of Dong Fang Hospital

International Students

- The earliest Chinese Medicine Institution to accept international students in China
- The international student number ranks first among the Chinese medicine institutions in China

International Students

International Student Number	1456
------------------------------	------

Undergraduates	1150
----------------	------

Graduates	200
-----------	-----

Visiting Students	106
-------------------	-----

BUICM

International Cooperation

International Cooperation

- **BUCM has established co-operative relationship with 78 institutions, academic organizations of 23 countries and regions in TCM education program, scientific researches and medical treatments.**

International Cooperation

- Over 3000 staff have been sent to about 60 countries and areas for visiting, teaching and practicing of TCM

International Collaborating Joint TCM Program

- Undergraduate TCM Program with Middlesex University (UK)
- Undergraduate TCM Program with Nippon Engineering College (Japan)
- Undergraduate TCM Program with Nanyang Technology University (Singapore)

International Collaborating Joint TCM Program

- Postgraduate TCM Program with Florence University (Italy)
- Postgraduate TCM Program with Mashhad University of Medical Science (Iran)

International Collaborating Joint TCM Program

- Training Program with Fundacion Europea de MTC (Spain)
- Training Program with Chinese Medical Institute & Register- London (UK)
- Training Program with School of Chinese Pharmacy (Singapore)
- Japan (Japan)

Collaborating With Fundacion Europea de MTC

- Start in 1989
- Collaborating in Medical service and training of Chinese Medicine
- Over 50 professors have been given lectures in Fundacion Europea de MTC
- The students from Fundacion Europea de MTC study at BUCM's hospitals each summer
- BUCM's administrators visiting Spain every other year to discuss the mutual cooperations

BUCM

International Cooperation Program

TCM-Klinik Kotzting (Germany)

Established in 1991, it is the first and unique TCM hospital (with in-patient treatment) in Germany.

TCM therapies used in the treatment : herbal medicine, acupuncture, Tuina, Qigong, and dietetics.

Over 20,000 patients have got TCM treatment at this hospital.
